

MARKETS WE SERVE

SMALL & MEDIUM BUSINESSES

As a small or medium sized business in a challenging economy, you need to operate your companies more efficiently than the competition, taking advantage of every edge that you find. Geer Services is the ideal technology partner for business of all sizes, offering solutions normally reserved for Fortune 500-level companies. See below for the some of the services that can give you that valuable leg-up on the competition.

CORPORATE

Geer Services offers a variety of Information Technology services relevant to corporations of all sizes. Our database development and consultation and programming solutions have been employed within some of the region's most influential companies such as Pond Company, RS&H and CSX.

GOVERNMENT

Geer Services offers a variety of services relevant to the Federal Government and Military. Two of our owners are retired Air Force and as a Service Disabled Veteran Owned Small Business (SDVOSB), we can help you meet your SDVOSB contracting targets. Here are some of the services we offer that will be of interest to Government entities.
